

Senior Consultant – Controlling & Finance Transformation

Ready to Drive Change? Become a Senior Consultant – Controlling & Finance Transformation!

Are you a numbers wizard with a passion for creating impactful change? My client, a leading consultancy in finance and transformation, is looking for a dynamic **Senior Consultant** to revolutionise controlling and finance strategies for top-tier organisations. If you're ready to combine innovation, analytics, and leadership, keep reading!

What Awaits You

- **Innovative Projects:** Lead cutting-edge finance transformation projects that empower organisations to rethink their financial strategies.
- **Client Collaboration:** Work closely with decision-makers to develop tailored solutions that deliver measurable results.
- **Data-Driven Insights:** Use advanced analytics to redefine controlling practices and elevate financial performance.
- **Digitalisation:** Drive digital transformation in finance, from automation to data visualisation, and be the pioneer of innovation.
- **Global Reach:** Collaborate on international projects that leave a lasting impact across diverse industries.

Your Role

- Develop and implement innovative controlling and finance transformation strategies.
- Guide clients through complex challenges, offering solutions that align with their strategic goals.
- Analyse processes and identify optimisation potential, delivering both efficiency and value.
- Leverage your knowledge of digital tools and trends to enhance financial operations.
- Lead workshops, present results, and act as a trusted advisor to clients.

What You Bring to the Table

- **Experience:** 5+ years in consulting or relevant finance roles with a strong focus on controlling and transformation.
- **Expertise:** Deep understanding of controlling, financial planning, and accounting processes.
- **Digital Fluency:** Knowledge of finance digitalisation tools (e.g., SAP, Power BI, Alteryx) is a major plus.
- **Analytical Mindset:** Ability to translate data into actionable insights and solutions.
- **Client Focus:** Exceptional communication skills to build trust and relationships with stakeholders.
- **Languages:** Fluent in German and English; French is a bonus.
- **Drive:** Enthusiasm for travel and working on-site with clients to deliver excellence.

Why This Role is Different

This is more than just a job. It's an opportunity to shape the future of finance for leading organisations while developing your skills in a supportive and innovative environment. My client offers:

- A **collaborative, team-driven** culture.
- Access to **transformative projects** and digital tools.
- **Career development** with a focus on **continuous learning and growth**.

Let's Talk!

If you're ready to take your expertise to the next level, we want to hear from you. Apply now and let's shape the future of finance together!

Your journey starts here.
